

The choice of better workshops, making a difference in 2020

New Zealand's leading
diagnostic and training
Company.

GYSFLASH 102 \$1495 + GST

Specifically designed to be fitted on a wall or on a car lift, the vertical GYSFLASH 102.12 is a very powerful inverter battery charger able to supply up to 100A.. The GYSFLASH 102.12 will keep the battery's voltage perfectly stable at 12V during the diagnostic phases

GTS600 \$1495 + GST

Great addition to your workshop for deciphering error codes/data and providing you with valuable solutions to automotive problems. There is not much this tool can't do!

Fully automatic pro LED computer wheel balancer
\$2995 + GST

The balancing machine for the professional tire specialist. The **BRIGHT HAWK** is a compact motor-driven balancer and is equipped with a 40mm balance shaft, 4 cones (45-155mm) quick nut with a plastic cover and rubber ring to protect the rim, balance pliers, and a 50 gram wheel weight for self-calibration. The machine comes with a space-saving wheel guard and is suitable for passenger car wheels, vans, caravan/trailer wheels, and also for motorcycles (with correct accessories). The **BRIGHT HAWK** has an automatic measurement reading arm, rim width gauge, and brake that tops at the point where the wheel weight should be placed. The results are displayed on the LED display (USB port) which is equipped with modern reliable Italian software and measurement technology.

NZTA Approved

The Winntec Smart Cart \$895 + GST

The Winntec Smart Cart is the best way to transport heavy tires and wheels around the shop. With its spring-loaded arms and no foot pedals, grabbing and releasing tire stacks couldn't be easier.

HOW THE SMART CART Y471147HD WORKS:

1. Simply push the Smart Cart toward the stack of tires and watch as the spring-action arms grasp the tires without the need for cumbersome pedals, levers, or gas springs.
2. Tip the Smart Cart toward you – note the tilting-action. This allows for less stress on the technician.
3. Use the Push / Pull Handle to remove the cart from the tire stack.

Smart Disc

The Smart Disc guarantees extra mobility and flexibility during tire servicing. The robust discs are fitted with casters so that they can easily transport tires and wheel assemblies quickly and efficiently. It also works with the Winntec Smart Cart so that entire sets of tires and wheels can be moved across the workshop to a warehouse or even over rough terrain.

- Designed to handle over 350lbs.
- Move wheel assemblies with ease.
- Avoid injuries from unnecessary lifting.
- Create a unique showroom display.

\$129.57 + GST

MIG M1 GYS AUTO EQUIPE

The T1 GYS three-phase MIG welding machine, manufactured by GYS. This machine is ideal to use for welding steel, stainless steel, and aluminium. In addition, it is applicable for MTG brazing of high-tensile strength steels having CuSi and CuAl wires.

\$2295 + GST

PLASMA CUTTER EASYCUT 40 \$1795 + GST

Ultra compact (8 kg), the EASYCUT 40 is a plasma cutter with a HF free starting voltage, perfect for cutting all types of metal up to 15 mm thick. With a power output of 40 A, it excels in precision cutting at low intensity. Ideal for use in workshop or car body shop, the EASYCUT 40 has great portability and cutting performance.

GYSFLASH 12.12 From \$189 + GST

The GYSFLASH 12.12 is specifically designed to charge all types of 12V batteries such as cars, utility vehicles, motor homes or trucks. It features an 8 steps intelligent charging curve for an optimal charge; as well as a 'Supply' mode to support and maintain showroom vehicle batteries

Also available in 4A, 6A, 8A and 12A

1A \$159 + GST
6A \$189 + GST

Ideal for Cars & motorbikes

GYSFLASH 1.12 Lithium

The GYSFLASH 1.12 Lithium charger is an advanced device specifically designed to recharge and maintain 12 V Lithium Iron Phosphate (LiFePO4) batteries.

It has a unique 8-step charging curve with EBS technology for fast and safe charging.

GYSFLASH100-12 \$1395 + GST

GYSFLASH 100-12 HF is a 100A high power stabilised supply incorporating Inverter technology with 5 functions : • Battery support: sustains 12V (liquid or gel) automotive battery during diagnostic work • Advance battery charger: ensures an ideal charging cycle for battery maintenance for the most modern vehicle

GYSFLASH121-12 \$2795 + GST

The GYSFLASH 121.12 CNT FV is a 120 A high power CONNECTED charger with inverter technology. It allows to keep a 12 V lead or lithium battery at a perfectly stabilized voltage during the diagnostic phases. It will deliver the best charging cycle recommended for the maintenance of the most advanced vehicles on the market. Its USB connectivity makes it 100% customizable.

Diag Startium 60-24

The DIAG-STARTIUM 60-24 is a 3 in 1 advanced battery Charger, Starter, and Battery Support Unit that will satisfy all the needs of the modern workshop.

Carbon cleaning machine

Our Carbon Cleaning Machine provides the highest quality engine detox. It uses the latest hydrogen technology to remove the carbon build up that accumulates in all engines overtime.

The Carbon Cleaning Machine provides a stress free service with no dismantling of parts or the use of harmful chemicals, anyone can use it!

We also have available for trucks/heavy duty engines 6 to 12 litre Ask about the EP530PRO Carbon cleaning machine

P.O.A

G7 Carbon cleaning machine

\$2495 + GST

- More Responsive
- Lower Emissions
- Potential Fuel Savings
- Smoother Performance
- Restored Power
- Enhanced Driving Experience
- Less Vibrations
- Restored Torque

Its a very easy to use machine! It runs on 240v mains power or can be used on a 1000 watt inverter and then connected to the car battery. Simply start the car (engine will need to warm - normal operating temperature) and connect the hose to the air intake. You may need to undo a cir-clip or band in order for the hose to slip into the air intake. After approx. 30-60mins (Vehicle engine size dependant) the carbon clean cycle is completed. You will notice during the cleaning cycle that the engine will quieten down and when you take it for a test drive it will have restored some BHP. So you will notice the vehicle pick up. But overall you will have better MPG, emissions, better acceleration, smoother ride and a healthy running engine!

Walnut blasting machine

Walnut blasting machine, this unit is for blasting the back of the valves after removing the intake manifold. To use additive in an intake means debris, carbon and sludge are washed into the combustion area past the valves and into the engine, exhaust and catalytic converter if fitted... not an ideal result.

Best practice as performed by many OEM is to clean the intake manifold on the bench, walnut blast the backs of the valves and hydrogen clean the combustion area...for best results!

This new designed unit with a two stage recovery vacuum motor enables easy walnut blasting with its two size nozzles.

*240volt and compressed air required.

Car air conditioning recycling systems

Car air conditioning recycling systems deliver a profitable and productive solution for your workshop. Get your Workshop ready for the start of Summer and start increasing your turnover NOW!

\$3850 + GST

- * Automatic flushing
- * Automatic recovering/recycling
- * Automatic /manual used oil drain
- * Automatic vacuum
- * Automatic /manual new oil injection
- * Automatic recharging with load cell

- * Manual recharging with jar via the auxiliary port
- * Maintenance message code display
- * Maintenance procedures
- * Data printing
- * Database
- * Electric scale calibration
- * Parameter setting

Hanatech leak detector

A well proven unit. Ask for a demonstration today. IT JUST WORKS!
Recommended by the top automotive testers as the first tool the 'go to'
Unstable idling, poor drivability, bad fuel economy, leak codes?
It will help you to pin point the exact location of the leak within a few minutes:
Work efficiently, be cost effective.
Save hours of wasted labour time.

2 channel standard kit from \$2850+GST
4 channel standard kit from \$3850+GST

The CAN Test Box gives you easy access to the 16 pins of the diagnostic connector that is fitted to all modern vehicles.

Pressure transducer

\$1349+ GST

With the unparalleled resolution and accuracy of the WPS500X Automotive Pressure Transducer you can perform quick and accurate pressure analysis of many automotive systems.

2 Channel Standard Kit includes:

- 1 20 A/60 A AC/DC current clamp
- 1 Standard (ATC) fuse extension lead
- 1 10:1 attenuator
- 2 Flexible back-pinning probe (red)
- 1 Multimeter probe (black)
- 1 Small crocodile/gator clip (red)
- 1 Shrouded to Unshrouded Adapter (red)
- 1 USB cable 1.8m
- 1 Carry case
- 1 200 A/2000 A AC/DC current clamp
- 1 Mini (ATC) fuse extension lead
- 1 Secondary ignition pickup
- 2 Flexible back-pinning probe (black)
- 1 Multimeter probe (red)
- 1 Battery Clip (Red)
- 1 Secondary Ignition Pickup (automotive test lead)
- 1 Automotive software CD-ROM
- 2 Premium test leads
- 1 COP and signal probe
- 1 Back-pinning probe set
- 1 S-hook
- 1 Small crocodile/gator clip (black)
- 1 Battery Clip (black)
- 1 HT extension test lead
- 1 Automotive Quick Start Guide

4 Channel Standard Kit includes:

- 1 20 A/60 A AC/DC current clamp
- 1 Standard (ATC) fuse extension lead
- 2 10:1 attenuator
- 4 Flexible back-pinning probe (red)
- 2 Multimeter probe (black)
- 2 Small crocodile/gator clip (red)
- 4 Shrouded to Unshrouded Adapter (red)
- 1 USB cable 1.8m
- 1 Carry case
- 1 200 A/2000 A AC/DC current clamp
- 1 Mini (ATC) fuse extension lead
- 2 Secondary ignition pickup

Complete Complex Vehicle Repairs with Ease

- Comprehensive Diagnostics with OEM Licensing
- OEM-trained Remote Expert Guidance
- Built-in Remote Programming & Coding

Our DrivePRO platform allows us to see what you see from our Tech Support Centre in real-time. Complex repairs and module replacement made possible with live access to our OEM-trained Master Technicians.

Talk directly to our software engineers and benefit from real-time updates. Enhanced Diagnostics. Autologic's industry-leading diagnostic software makes for fast and reliable fault identification.

Enhanced functionalities include:

- Fault read/clear
- Global fault read/clear
- Printable vehicle fault report
- Service interval reset
- Live data and actuations
- Electronic brake pad replacement
- Diesel particulate filter DPF reset
- Selective catalytic reduction SCR reset
- Steering angle calibration
- Ride height calibration
- Engine adaptation reset
- Key coding and remote adaptation
- Technical help files
- Flash Programming & Coding
- Code and program new parts using:
- On-board Autologic diagnostic software
